PROFESSIONAL SUMMARY

Results-driven Software Engineer with 3+ years of experience in frontend development and payment integration solutions. Specialized in creating intuitive user interfaces and developer tools using Angular, React, and modern web technologies. Demonstrated expertise in designing and implementing fintech solutions that streamline integration processes for enterprise clients. Passionate about creating high-quality software that solves real-world problems, with a proven track record of publishing reusable components and optimizing development workflows.

SKILLS

- **Programming Languages:** TypeScript, JavaScript, Python, HTML5, CSS3
- **Frameworks & Libraries:** Angular, React, NestJS, Tailwind CSS
- **Tools & Technologies:** Git, Firebase, MongoDB, SQL, Figma, Photoshop
- **Methodologies:** RESTful APIs, UI/UX Design, Agile Development

PROFESSIONAL EXPERIENCE

Software Engineer, Surfboard Payments – Chennai, India May 2022 – Present

- Led the development of Partner Portal, a critical platform enabling partners to manage their merchants efficiently in our partner-centric business model, resulting in 35% faster merchant onboarding and supporting 50+ active partners managing 500+ merchants.
- Contributed to the Developer Portal, facilitating seamless integration of payment solutions for enterprise clients, reducing integration time by 60% and supporting 30+ API endpoints with comprehensive documentation.
- Collaborated with backend teams for testing endpoints and developing services, ensuring robust payment integration solutions.
- Published an npm package "ng-terminal-typing-effect" for terminal interface simulation in web applications which helps in 15% faster development.

Web Developer Intern, Surfboard Payments – Chennai, India Oct 2020 – Dec 2020

- Gained comprehensive understanding of software engineering lifecycle through practical application in web development projects and developed a Bike Service Web Application as a culmination project, implementing frontend and API integrations.

EDUCATION

SRM Institute of Science and Technology, BTech in Computer Science June 2018 – May 2022
(Information Technology)

PROJECTS

Hotel Checkout App [github.com/ Abhishekmohan7171/EzOrder](https://github.com/Abhishekmohan7171/EzOrder)

- Developed a full-stack application using Angular and Firebase real-time database.
- Implemented features for menu management and customer order display.

CERTIFICATIONS

- Data Science for Engineers (NPTEL)
- Postman API Fundamentals Student Expert
- Machine Learning (Verzeo)
